# ELECTRA | ROTALLARM LED

## Multifunctional LED Beacon

### LARGER-SIZE MULTIFUNCTIONAL LED BEACON WITH STEADY, FLASHING AND ROTATING LIGHT EFFECT

#### TECHNICAL SPECIFICATIONS

##### OPERATING TENSION

LT 12/24V ACDC  
HT 90/240V AC

##### BASE

Base available in allGRAY (Industrial Gray RAL 7035) and allBLACK (Industrial Black RAL 9005). Securing via 3 x 6.5mm holes disposed over a diameter of 130mm at 120 degrees intervals according to ISO DIN B standards. M20 cable gland supplied

##### LIGHT DOME

Available in Blue, Amber, Red, Green, Yellow and Clear

##### APPROVALS

##### MECHANICAL FEATURES

DOME | High impact resistance transparent PC  
BASE | PC/ABS  
TRANSMISSION | No moving parts

Polyurethane gasket on base

##### OPTICAL FEATURES

32x 5050 Bright LEDs

**ROTALLARM LED** is the latest addition to the most successful rotating beacon in Sirena's history

With a powerful multitension and multifunctional SMD LED electronic circuit, ROTALLARM LED offers outstanding performances together with the highest life expectancy on today's market

With its IP65 rating, ROTALLARM LED is the most advanced Rotallarm ever

3 light effects controllable via independent electrical contacts  
STEADY | FLASHING | ROTATING

6 dome colors available

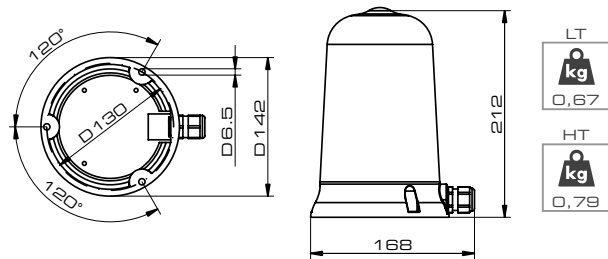

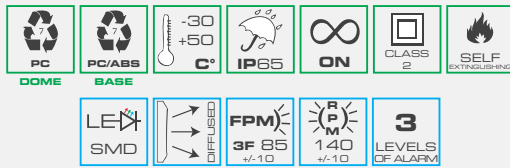

2 base colors available

DIN ISO B Base  
(3 holes over 130mm diameter)
