

**Product Description: DDS-1Y-18L-40A
SINGLE-PHASE DIN-RAIL ELECTRONIC ENERGY METER(ONE MODULE)**

The **single phase** one modular DIN-Rail energy meter is a new style single phase two wire static active energy meter. It adopts special large scale integrated circuit and international advanced technology of digital and SMT techniques. Its goal is high reliability, higher accuracy, and compact size.

- Voltage: 230V +/-20%
- Current : 5(45)A
- Accuracy class : 1.0
- Frequency : 50/60Hz
- Impulse constant : 1000imp/kWh
- Display mode : LCD/ Counter
- Power consumption : ≤8VA ≤0.4W
- Starting current : 0.004Ib
- Flashing red: Impulse indication
- Connection Mode: Direct Connect
- Standard: IEC62052 - 11/IEC62053 - 21
- DIN EN: 50022, DIN43880

Outer and mount dimension:
